

IDEA DAY

100% South-West

Discover the culture and traditions of the South-West !

Direction Bénéjacq, to the foie gras museum. Take an evocative journey inside giant jars to discover the history of products from the South West of France. At the end of the visit, you can sample the most emblematic of these products: foie gras!

In the afternoon, visit the Musée du Béret to discover all the secrets of beret-making.

This museum has an exceptional collection of old animated machines.

The day ends in Bourdettes, where you'll discover one of the last remaining bell-making workshops: the Maison Daban. True musical instruments in the mountains, they are an invaluable aid to shepherds. (Visits for 6/8 adults or more by appointment only)
